## Tips to Help You Save Money!

**Focus on reaching a goal.** Stay focused on your reasons for saving money. Post reminders on your bedroom door or wherever it will help to remind you of your goal.

**Save first.** Every time you get money as a gift or are paid for a job well done, set aside some of that money as savings before you spend. It will add up and help you reach your goal sooner!

**Always have some money saved in case you need it.** You never know when you might NEED money for something. Your savings are not only there to help you reach a goal for something you want, but can be handy in case you need money right away.

**Don't spend more money than you have.** Have a plan so you know how much money you have and where you will spend it. You should always know where your money is going.
